Quick Replies for FUD & Haters

? "Is \$RAIN another pump & dump?"

◆ *Nope. 80% of total supply is locked in LP, and the CLMM bot ensures constant reinvestment. This one's **BUILT TO LAST**. 🌱*

? "Why should I hold RAIN?"

◆ *Because staking, arbitrage, and airdrops keep the ecosystem growing. Plus, the burn mechanism ensures supply keeps dropping, making RAIN more valuable over time! 🔥*

? "Is this just another meme coin?"

◆ *Yes, but it's the **BEST ONE**. RAIN has actual utility, automated liquidity, and the **best chill community on Solana!** 🚀*
